

## Side Step Card

1. Start with a piece of cardstock cut 5 ½" x 8 ½".
2. Place the cardstock portrait position in your Stampin' Trimmer with the left edge of the cardstock at the 2 ½" mark. Then make a slit from the 2 ⅛" to the 7 ⅝".
3. Then rotate counter clockwise in your trimmer and score at 2 ⅛", 4 ¼", 5 ½", 6 ¾" and 7 ⅝" just to the slit, except the 4 ¼" run all the way across.
4. Fold it on the score marks accordion style to create stair steps.
